BYOFC and OPEN CONSOLE

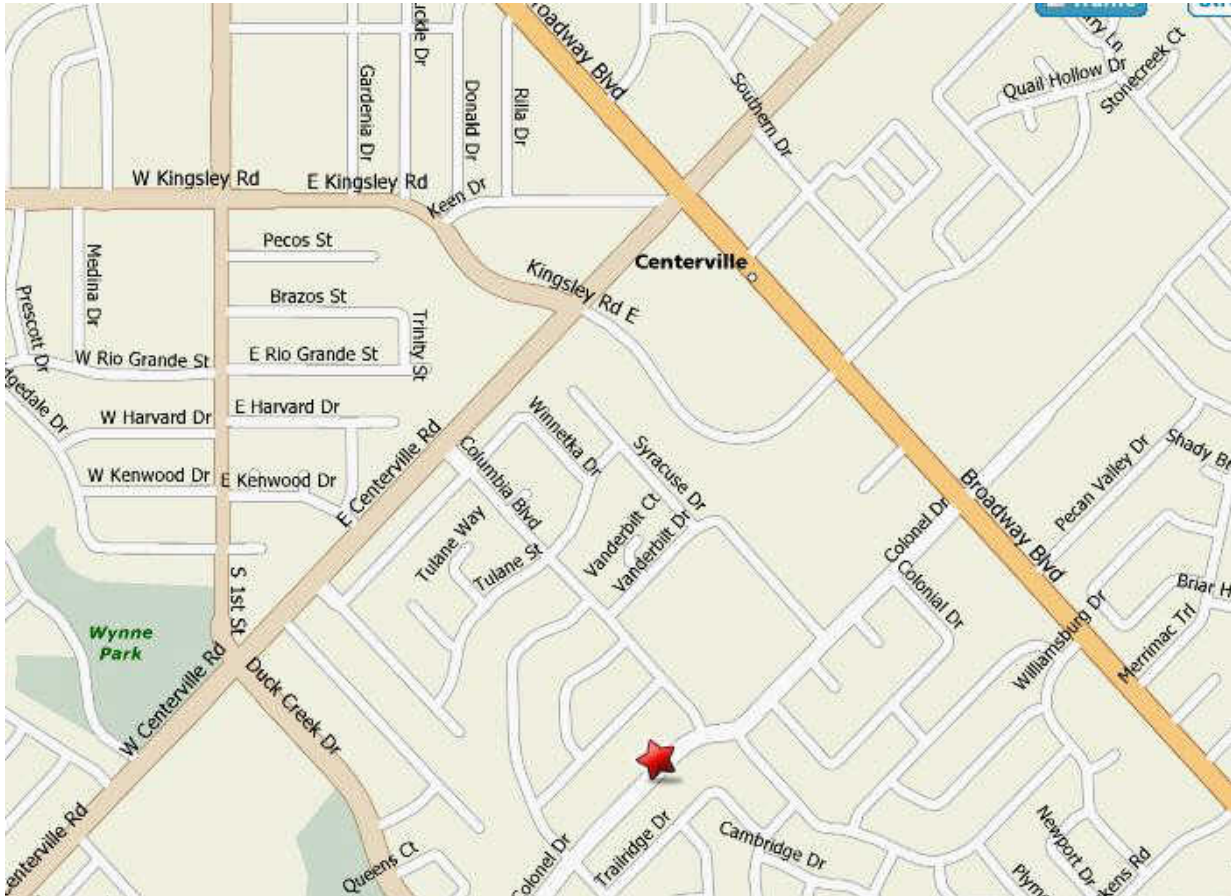

Our March Concert/Meeting is a special time for our members. It is a **BYOFC** meeting and **Open Console**. **BYOFC** means **Bring Your Own Folding Chair**. Due to limited space, everyone needs to bring a chair. Irwin Arnstein will begin our afternoon with a few nice tunes as he describes the building of this unique organ. After Irwin plays, we open the console to everyone.

Open Console means **everyone** can play. It means YOU have a chance to play one of the seven organs in the Arnstein Opus 1. **Bring your sheet music** and share your talent with everyone. If you are a listener, you can enjoy an afternoon of pop, classical, jazz, theatre and probably some original tunes and arrangements by our own members.
